

CSafe Announces Executive Appointment

Effective July 11, 2011, Mark Mohr is joining CSafe LLC as Director of Partner Management. In this newly created position, Mark will help existing airline partners grow and enhance their cold chain services by using the highly-regarded CSafe AcuTemp RKN. He will also lead the company's expansion of its global airline partner network as well as provide support to CSafe's Sales Directors.

Mark comes to CSafe with over thirty years of experience in sales, business development, marketing and process management. He has extensive experience in the air cargo business with DHL, United Air Lines and Continental Airlines. Prior to joining CSafe, Mark spent the last five years in a leadership role developing and expanding ClimateSecure, Continental's cold chain program. Mark is well-known throughout the airline industry for his regulatory expertise in the transportation of temperature-sensitive healthcare products.

"We welcome Mark to CSafe and are excited to bring his experience to our growing company," stated Brian Kohr, President of CSafe LLC. "The CSafe AcuTemp RKN is a proven solution for the transport of temperature-controlled products. Mark's experience will enable him to guide our airline partners and allow them to take full advantage of all of the benefits of the company's products and services. His appointment is yet another important step in building the foundation necessary to continue our strong growth." Mark has for many years been an advocate of the AcuTemp RKN. Mark commented, "I share in CSafe's commitment to our airline partners and to the achievement of successful cold chain shipments and am thrilled to be joining the team."

CSafe, LLC provides solutions for the temperature-sensitive air freight market. Its flagship product, the AcuTemp RKN, is the first and only active unit with FAA, EASA, Transport Canada and CAD approvals. CSafe products are marketed through many global logistics partners and are designed to address the stringent requirements of the temperature sensitive air cargo market. Since its launch in 2008, thousands of successful shipments have been made with the AcuTemp RKN. Headquartered in Dayton, Ohio, USA, CSafe, LLC is a joint venture between AmSafe Inc. and AcuTemp Thermal Systems. For more information, visit www.csafellc.com
